Installing Adobe Flash Player

By CS372 Teaching Staff March 11, 2020

In this document, we will show how to install Adobe Flash Player for KLMS video streaming.

1. Download Adobe Flash Player installer from <https://get.adobe.com/flashplayer/>.

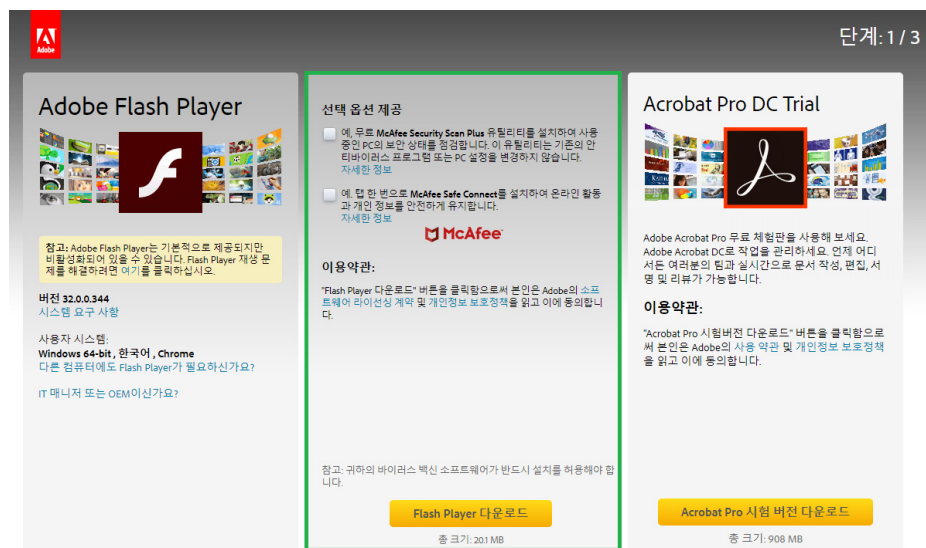

Figure 1. Flash Player download page

2. Execute `flashplayer32pp_xa_install` and restart your browser.

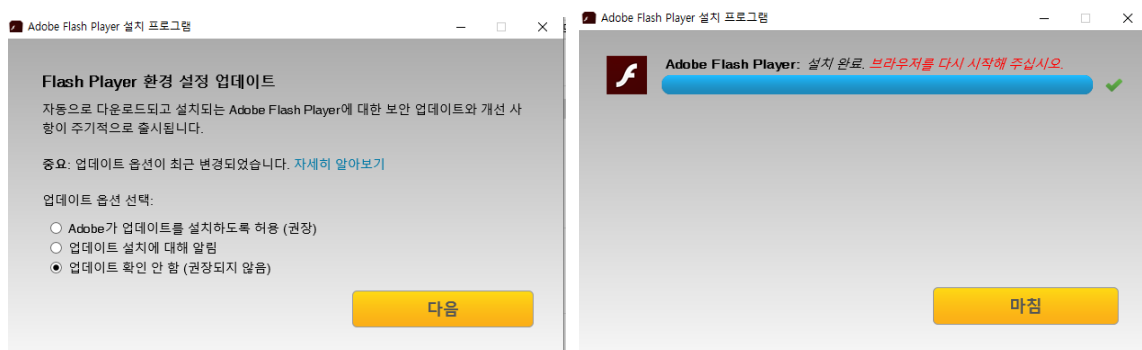

Figure 2. Flash Player installation

3. In the KLMS page, allow Flash Player and reload the page.

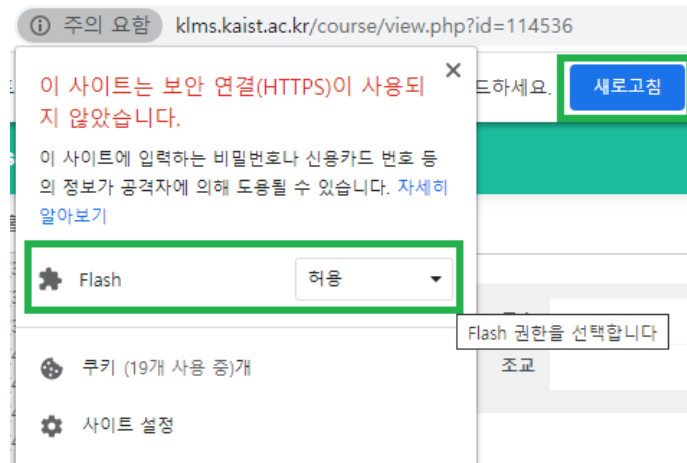

Figure 3. Click on the enable Flash Player button
